

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of claims:**

1. (Currently Amended) A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options;

display control means (11) which causes display of options in said display unit by division ~~or scroll~~; and

a key for selecting an option not currently displayed in said display unit from the options to be selected;

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option in said display unit and ~~performing a display so as to include said selected option~~ causing when next displaying said original selection screen [next] by operating a key, display of a screen that includes an indication of the selected option.

2. (Currently Amended) A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options;

display control means (11) which causes display of options in said display unit by division ~~or scroll~~; and

a key for selecting an option not currently displayed in said display unit from the options to be selected;

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option in said display unit and causing display of information indicating said selected option when displaying said original selection screen next by operating a key.
